

Panagiotis Koursaris

(Senior Software Developer)

Profile

I've been a Software Developer since 2012, with deep expertise in PHP and its enterprise frameworks. I specialize in building robust PHP applications using Laravel and Symfony, while also working with Go programming language and modern JavaScript frameworks such as React, Svelte, and Angular. I hold a degree in Computer Science from the Technological Educational Institute of Western Macedonia.

Passionate about best software development practices, using object oriented programming with design patterns and SOLID principles.
